The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or reasonably teach a transverse member including a bone engaging portion and a connection shaft, wherein the connection shaft is pivotally joined to the bone engaging portion. Also, a positioning device disposed along the longitudinal passage and being adjustable along the longitudinal axis of the nail to longitudinally adjust the relative longitudinal position of the bone engaging member with respect to the transverse opening along the longitudinal axis of the nail. Thus, the examiner has allowed claims 3-5, 8,10-12,15,49-80.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
